

WK05

FINGERTIP JOYSTICK

SAEKAI

- **Compact Design:** Ideal for control panels and armrests.
- **Reliability:** Uses non-contact Hall effect sensors for enhanced durability.
- **IP67 Protection:** Resistant to dust and water, suitable for harsh environments.
- **Custom Configurations:** Options for spring return, detents, and variable resistance.
- **Custom Colors:** Handles available in various colors to fit design preferences.

Applications

- **Industrial Controllers:** Suitable for a range of industrial remote controls.
- **Control Panels:** Integrates seamlessly into various control systems.
- **Armrests:** Perfect for machinery and equipment armrests.
